In view of this assurance, the estimate for Rs 7500/- for the improvements, as explained in as above may be sanctioned.

We have got hardly three months before us for the official year to close. It is doubtful if the work will be carried out this year even if the estimate is sanctioned. Instead of spending the amount required for this work out of the Trust Board funds this year and recouping it next year from the Municipal funds the President can wait for three months more and carry out the work out of Municipal funds in the next official year.
